

CompUniversity of Massachusetts Boston and Amherst
STEMPOWER FELLOWSHIP
Institute of Diversity Sciences Funded by the Alfred P. Sloan Foundation

A Research Experience for Undergraduate Students in STEM:

We also call it the Mini-PhD for Undergrads 😊

Computer Science

Engineering

Mathematics

Chemistry

Physics

Biology

We want *YOU* to join our hands-on research program for undergrad students

🌟 **STEMPOWER Fellowship Benefits:**

- ***YOU* GET \$5,000!**
 - \$1,000 at the beginning of the fall semester
 - \$2,000 at the end of fall semester
 - \$2,000 at the end of spring semester
- **Real-world Research Experience**
 - Potential pathways into experiential learning such as the PITNE Summer Institute
 - Opportunities to gain feedback from experienced researchers
- **Resume-building and Networking Opportunities**
 - Connect with peers, faculty, and professionals in STEM fields to strengthen your resume and expand your professional network.
- **Insight into Graduate-Level Research and Careers**
 - Gain valuable exposure to the kind of research conducted in graduate programs, explore potential STEM career paths, and get a realistic understanding of what graduate school is really like. This program provides guidance, resources, and firsthand experience to support your journey.

Interested? Apply at STEMPOWER.net/apply!

Organized by:

Daniel Haehn and Kim Hamad-Schifferli and Tori Duong from UMass Boston
Neena Thota and Shannon Roberts and Buju Dasgupta from UMass Amherst
